

# Keep it simple with a Vodafone prepaid card

Enjoy your prepaid value bundle which includes 6 GB of data + unlimited SMS within the Vodafone network for the first month and an extra CZK 200. You also get 50 % off on this bundle for the next 5 months. **Keep it simple, stay online and reach everyone you need.**

We have updated our prepaid bundle from 3 GB to 6 GB. The new data volume applies also to older cards.

## How does it work?

- > The bundle with **6 GB of data + unlimited SMS within the Vodafone network** in the first month is included. Other services (calls to all networks and SMS to other networks) are charged according to the pricelist.
- > In the following 5 months, **the bundle will renew automatically** on a monthly basis with a **50 % discount** = for CZK 174.5 per month. If you don't have enough credit and the bundle doesn't renew, you will pay CZK 3 for each minute of calling, SMS and 10 MB of data.
- > **If you don't have an active prepaid bundle, once you spend CZK 30 during the day, you get unlimited calls and SMS to all networks and 300 MB free of charge to be used until midnight on the given day.**
